### COLOR EFFECTS

#### World of Color

Our range of special fibers that yield different colorful heather and mélange effects in a single dye process. **PASTELLE** is perfect for multi-colored pastel fabrics. **COLORWISE** infuses deep color effects and dyes to the richest and deepest form. **ARAFELLE** is a textured yarn that creates soft mélange effects and infuses fabrics with a natural, cotton-like feel and appearance. **DUELLE** is a blend of Colorwise and Pastelle yarns that is perfect for stripes, jacquards, and fashionable patterns. **DUOMIX** and **TRIOMIX** combine two and three fibers to create varying heather effects.

### SPARKLE AND SHINE

#### Britex

A unique yarn texturizing process gives fabrics the striking luster of a flat yarn with the drape and hand of a textured product.

#### Diamond

This innovative product offers a delicate, refined sparkle in a remarkably soft, supple fabric. Ideal for 3D and other hosiery, socks, intimates, fashion apparel. Can be dyed with other colors and reversed to create colorful new effects. Available in black or undyed.

### SUPER SOFT

#### Supermicrofiber

Made of the finest Nylon 6.6 yarns ever produced. With an ultra-soft, silk-like effect, fabrics are lightweight, supple, with excellent drape and resilience. Second skin feel. Ideal for intimate apparel, hosiery, and activewear.

### INCREDIBLY SHEER

#### Eversheer

Ultra-sheer and extra-durable, smooth to the touch and run-resistant. Perfect for hosiery, intimates, and fashion apparel.
